PREPARED FLOORING BOARDS.

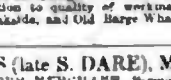
ALWAYS ON SALE, a Large Assortment of DRY PREPARED FLOORING BOARDS and MATCHED BOARDING of all sorts, planed to a parallel width and thickness, from ¼ inch to 1½ inch thick.

TIMBER, DEALS, OAK PLANKS, SCANTLINGS, SASH SILLS, &c.

Apply at W. CLEAVE'S Timber Yard, Wilton-road, Pimlico, late of Great Smith-street, Westminster.—Mouldings prepared by Machinery.

A REDUCTION in the PRICE of FLOOR BOARDS.—ALFRED ROSLING begs to inform the Trade and Consumers generally, that he has REDUCED the PRICE, and keeps constantly in stock a large and very general assortment of Prepared Floor Boards and Matched Boarding, planed to a parallel breadth and thickness, and fit for immediate use; also a variety of machine-prepared Mouldings, which are finished with great accuracy and attention to quality of workmanship.—Southwark Bridge Wharf, Bankside, and Old Barge Wharf, Upper Ground-street, Blackfriars.

T. ADAMS (late S. DARE), MAHOGANY and TIMBER MERCHANT, Bermondsey New Road, near the Bricklayers' Arms. SEASONED FLOORING, MATCH-BOARDING PIT FOR IMMEDIATE USE, and MOULDINGS prepared by machinery, Cut Deals and Scantling of every dimension, Mahogany, Cedar, Rosewood, Wainscot, Elm, Beech, Oak, &c., in planks, boards, veneers, and logs; Pantile, Oak, and Fir Laths; Wheelwrights' thoals. All sawn and prepared goods delivered free of carriage (except timber). Sawing charged at mill prices. Very extensive Drying Sheds.



SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, PLANK, DEALS, and BATTENS, &c., Sawn on the most approved principle. Boards, &c., Prepared, Matched, and Grooved, by Muir's Patent Machinery. The Mills have all the advantages of navigation and water-carriage, being connected with the Thames by the Grosvenor Canal. Goods fetched from the docks and carted home free of charge.

Address to HENRY SOUTHAM,
Saw Mills,
Gillingham-street, Pimlico.

N.B. Estimates given for Sawing and Planing.

WOOD THOROUGHLY SEASONED in DAYS instead of YEARS, by DAVISON and SYMINGTON'S PATENTED PROCESS, at the Patent Desiccating Company's Establishment (for Seasoning, Sawing, and Planing Wood), at the Grand Surrey Mills, immediately adjoining the Commercial and East Country Docks, Rotherhithe. The new process ensures the entire removal of moisture, hardens the gums, prevents further shrinkage, and strengthens the fibre.—For scale of prices, or license to work the patent, or any further information, address, post-paid, or apply to W. H. TANQUERAY, Secretary.

The Patent Desiccating Company's Offices are REMOVED from 26, New Broad street to No. 41, GRACECHURCH-STREET, CITY.

PATENT HANDRAILS WITHOUT HEADING JOINTS, now so well known and justly appreciated, being patronised by the most eminent architects.—J. MELVILLE, informs Architects, Builders, and the trade in general, that having recently erected an improved steam apparatus, which, by causing a saving of fuel, and otherwise giving greater facility to the execution of the work, he is enabled to make a reduction of 10 per cent. on his former prices. Patterns and prices forwarded to any part of the country on a reference being given, and Architects or Builders waited on in London.—64, Johnstreet, Fitzroy-square, London.

GLASS VENTILATORS FOR WINDOWS.

BAILLIE'S Patent Transparent Slide Valve VENTILATORS, supplied at a reduction of 40 per cent. from the original Tariff. Their extensive and successful application to public offices, bed-rooms, and the cure of smoky chimneys, prove their great utility. Coloured Glass of every tint at wholesale prices.—Designs and estimates for church and ornamental windows forwarded on application to EDWARD BAILLIE, Glass Painter, Stainer, and Embosser, 130, Cumberland Market, Regent's-park, London, where specimens are to be seen.

DR. ARNOTT'S CHIMNEY VENTILATOR.

F. EDWARDS, Stove Maker to her Majesty, 20, Poland-street, Oxford-street, begs to call the attention of Architects, Builders, Gas-fitters and the Public, to the truly invaluable advantages to be derived from the use of Dr. Arnott's Valve for the Ventilation of Rooms of every description.

Prices from 7s. 6d. to 30s. each. A prospectus, containing full particulars, to be had on application.

SMOKY CHIMNEYS—NO CURE, NO PAY.

Twenty-five years' extensive experience in all the branches of a stove manufacturing business, and the cure of smoky chimneys of every description, fully justifies F. E. in stating that he can undertake the cure of smoky chimneys on the above equitable terms.

WILSON and Co.'s PATENT VENTILATING CHIMNEY-POT, for the Cure of Smoky Chimneys, has been tested extensively throughout the Kingdom for the last three years, and has proved to be an effectual remedy.

The Patent Pots cannot corrode or get out of order, and can be effectually swept by the sweep's machine.

J. W. and Co. had the honour of fixing upwards of fifty of the Patent Ventilating Chimney Pots, in artificial Stone Cement, on the chimneys of Buckingham Palace; since which a number have been fixed at Windsor Castle.

The Patent Pots have proved to be the most effectual invention ever yet discovered, and also unrivalled for their ornamental appearance; they are manufactured of artificial Stone Cement, Iron, or Zinc.

The Trade supplied with them at the Manufactory,

VALE PLACE, HAMMERSMITH, MIDDLESEX.

Inquiries from the Country to be addressed to Messrs. Wilson and Co., at their Manufactory, as above. Prices and prospectuses forwarded by return of post.

N.B. Licenses granted to Manufacturers.

ARCHITECTURAL ENRICHMENTS.

BIELEFELD'S IMPROVED PAPIER MACHE, which has been almost universally adopted for architectural decorations, has been patronised by her Majesty, by the Honourable Commissioners of Board of Works, by the highest of the nobility and gentry, and by the most eminent architects of the day. It has been used at the royal palaces, at the present House of Lords, at Dublin Castle, at Disston Manor, the new Conservative Club House, Grosvenor Hall, &c., also at the British Museum and Pantheon Bazaar, where it has been extensively used for some years, and an inspection will sufficiently establish its superiority over every other kind of composition, both for beauty and durability. Designs prepared for the decoration of ceilings, panelling of walls, &c. A volume of enrichments, containing more than 1,000 designs of the papier maché ornaments, with a tariff, price £1.—Works, 13, Wellington Street North, Strand.

WEST of LONDON and WESTMINSTER CEMETERY, Old Brompton and Fulham-road, 2 miles only from Piccadilly. Consecrated by the Bishop of London in 1840. The public are invited to inspect the Cemetery, which is open daily, for interments, from Eight o'clock in the morning until sunset. Tables of charges, and other particulars, may be obtained at the office, 123, Piccadilly.

A portion of the ground is unconsecrated.

JOHN H. BUDDICK, Secretary.

CHEAP ORNAMENTAL GLASS.—I beg to inform my friends and the public, that I have now completed a new ENGINE, and, owing to the facility with which I can execute orders, I am enabled to reduce my former prices considerably. The prices are now from ONE SHILLING PER FOOT SUP., and borders from SIXPENCE PER FOOT RUN. A large quantity of the cheapest patterns always in stock. Enamelling and painted work on the most moderate terms.—CHARLES LONG, No. 1, King-street, Baker-street, Portman-square.—Cash only.

WINDOW GLASS.—THOMAS MILLINGTON begs to inform the Trade and Consumers that he has a large Stock of Sheet Glass on hand, which he will supply in 200 feet cases, delivered free in London for 4s. 6d. per case, or cut to size, 3d. per foot.—Address, 87, Bishopsgate-street-without.

WINDOW-GLASS, VARNISH-COLOURS, and PLUMBERS' BRASS-WORK.

THOS. MILLINGTON, 87, Bishopsgate-street Without, London, begs to inform the Trade, and consumers generally, that he is supplying the above articles of the best materials and upon the lowest terms for cash.

CROWN, SHEET, and PLATE GLASS, in any quantity; VARNISH: fine Oak or Walnut, 10s.; Carriage, 12s. per gallon; White Lead, Tints, and Colours and Brushes. Water Closets complete, 30s.; Lifting Pumps and Cocks of every description.

Milk Pans; Evaporating, Bee, and Cucumber Glasses; Paperhangings from 1s. per piece upwards, of very superior description.

GREAT REDUCTION IN THE PRICE OF PLATE-GLASS.

THE UNION PLATE-GLASS COMPANY.—Pocket-book, St. Helen's; 28, Huston-garden, London; No. 13, York-street, Mosley-street, Manchester; and 28, North John-street, Liverpool; inform Builders and the public generally, that they are now selling ordinary glazing sizes of plate glass from 8s. to 9s. per foot, and smaller plates suitable for cottages, greenhouses, and conservatories, at 6d. to 1s. per foot.—RICHARD YATES, Secretary.

STAINED GLASS.—To the Clergy and Architects.—Mr. WILMSHURST begs to inform the Clergy, Architects, &c., that he has opened a room containing a variety of specimens of PAINTED GLASS, suitable for Gothic Church decoration, viz., subjects, single figures of the Evangelists, and other Saints (some having canopies and pedestals), with numerous emblems; and examples of Windows, suitable for churches of various periods of architecture; also, specimens of Illuminated Tablets.

Mr. WILMSHURST solicits the inspection of the above by all interested in church embellishment at his residence, No. 13, Foley-place, Langham-place.

TO THE NOBILITY, CLERGY, GENTRY, ARCHITECTS, &c.

ORNAMENTAL, EMBLAZONED, and FIGURED STAINED GLASS, and ENCAUSTIC TILES, by new processes.—The Advertiser is prepared to execute orders of any extent, and patterns, whether in heraldry, flowers, figures, landscapes, or monograms, in colours of the most beautiful and desirable brilliance, and indestructible by the atmosphere, so as to meet the wishes of whoever supplies him with the design for execution, and peculiarly adapted for ecclesiastical edifices and baronial halls, &c. In not being restricted to size or object, nor to diversity of arrangement, and prepared to meet any competition, the Encaustic Tiles are specially adapted for portions of apartments, from the surbase to the floor, also for baths, dairies, fire-places, shop-windows, &c.—presenting to the eye the most pleasing proof of cleanliness and decorum, and not affected by either air or moisture. The ornamental, figured, enamelled patterns of Glass, at 1s. per square foot; and any private design will be executed at this price, when the order is not for less than 100 feet. The Tiles are at an equally low price per square yard. Orders will receive the most prompt attention, and be speedily completed, for cash only.—GEORGE WALKER, Paradise-street, Tunstall, Staffordshire Potteries.

CHAS. WM. WATERLOW,

MANUFACTURER

of Sashes and Frames, and Joiner to the Trade, 121, Bunhill-row, Finsbury-square.—Well seasoned materials, superior workmanship, lowest prices.—Upwards of 500 DOORS, and a large variety of Sashes and Frames, always on sale. Glazed goods securely packed for the country. Steam-struck Mouldings in any quantity.—N.B. This Establishment is worth the notice of all engaged in building.

LAMBERT'S PATENT FLEXIBLE DIAPHRAGM HIGH-PRESSURE WATER-TAPS.—This application of the Vulcanized Caoutchouc is proved expressly for these valves, with layers of canvas amalgamated therewith, having now stood the test of two years' trial with perfect success, the Patentees beg to point out some of its many important advantages over the old plug and other taps and valves. First. The security from leakage, let the pressure be ever so great. Its extreme durability, the parts in contact with the water being free from friction; the ease with which it is opened and closed; it never gets stiff or set fast for want of use, neither is it liable to injury by frost; they can be made in iron, and at a less cost than any other taps, and are exceedingly well adapted for ball or cistern valves, and in no instance have they been known to fail; many hundreds have been fixed, to which reference can be given with the greatest confidence.

THOMAS LAMBERT and SON, Patentees and Sole Manufacturers, 20, New Cut, near the Blackfriars-road, London.

SANITARY IMPROVEMENTS.

BUNNETT'S

PATENT SELF-ACTING EFFLUVIA TRAP

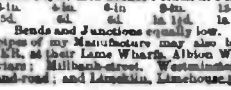
For Sewers and Drains of all kinds.

Registered January 5th, 1848.

A cheap, durable, and most effectual means of preventing the escape of noxious vapours. It is entirely self-acting and self-cleansing, cannot get out of order, and may be readily applied in all situations without altering the present gratings.

The above is a most important improvement on all contrivances of the kind, and is manufactured in various sizes to suit all purposes, specimens of which may be seen, and also working models, at the office of Messrs. BUNNETT and CORFE, Engineers, 26, Lombard-street, London; and at the works, Deptford, Kent.

UNION BROWN STONE POTTERY, CHEMICAL APPARATUS, and DRAIN-PIPE MANUFACTORY, 14, Vauxhall-walk, Lambeth. Patronised by Her Majesty's Commissioners of Woods and Forests, and by the Metropolitan Commissioners of Sewers.



WILLIAM NORTHEN, Inventor of Salt GLAZED BROWN STONE SOCKET DRAIN-PIPES, in every variety of shape, begs to call the attention of Architects, Surveyors, Contractors, and Others to the following list of prices:—

Straight Barrel Pipes, with Socket Joints, in 2-ft. Length.

2-in.	3-in.	4-in.	6-in.	9-in.	12-in. bore
4d.	5d.	6d.	8d.	1s. 1d.	1s. 10d. per foot

Bends and Junctions equally low.

N.B. Drain-pipes of my Manufacture may also be obtained of Messrs. ROBIER, at their Lime Wharf, Albion Wharf, Holland-street, Blackfriars; Millbank-street, Westminster; Kingsland Basin, Kingsland-road; and Limehouse.

J. MASON begs to call the attention of the Nobility and Gentry to his superior Collection of Terrace Pieces, Garden and Pleasure Ground Vases, Flower Pots, Fountains, &c. &c. Also Architects, Surveyors, and Builders to a great variety of Perforated Ornaments, for Parapets, Balconies, Terraces, and Garden Walls, Capitals, Friezes, Consoles, Chimney Shafts, and other Ornaments, &c. Casts of Arms furnished in a superior manner, all at half the usual price.—36, Providence-row, Finsbury-square, from Albion Wharf, Blackfriars bridge.

TO THE BUILDING PUBLIC.

FIRST-RATE ORNAMENTS in ROMAN and other CEMENTS, and PLASTER of PARIS, at reasonable prices, consisting of Vases, Balconies, Capitals, perforated Panellings, Cantilevers, Brackets, Friezes, Wreaths, Scrolls, Masques, Heads, Figures, Friezes, Gothic and other Chimney Shafts, Bodies, Bed-moulds, Paterae, &c. &c. &c. 12-inch Centre Flowers fixed complete, 2s. each, smaller in proportion. An assortment of Shop-front Trusses always ready for fixing.—JOHN HERBERT and SON, Modellers, &c., 43, Parker-street, Drury-lane.

PROTOXIDE PAINT, for Stucco Fronts, for Iron, Brickwork, and Wood. Manufactured only by CHARLES FRANCIS and SONS, Cement Works, Nine Elms.

TODD'S PATENT METALLIC PROTOXIDE PAINT, for Stucco Fronts, Brickwork, Iron, Wood, and every description of Painting. This Paint has been most severely tested for nearly four years, by men of great experience, and has been extensively used under the superintendence of Architects, Engineers, and Surveyors of the greatest eminence.—Orders to be addressed to Mr. B. TODD, Patentee, 69, Dean-street, Soho, London.

GREAVES'S BLUE LIAS LIME and LIAS CEMENT.—Messrs. BUTTY and VEREY'S, 3, South Wharf, Paddington Basin. Works at Stratford-on-Avon and Southam. GLAZED STONE WARE DRAIN PIPES on hand.

ATKINSON'S CEMENT.—WILLIAM WOOD, Jun., Manufacturer of Roman, Portland, and Bath Cement, Blue Lias Lime Works, CHURCH STREET, ROTHERHITHE, Sole Consignee for Atkinson's Cement.—Over Stone Lime Depôt. Cement Chimney-pots of every pattern.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible stucco, which may either be prepared for paint, or finished in imitation of stone, by the addition of Portland or other stone dust.

It is a cheap and efficient substitute in place of wood for skirting, architrave, and other mouldings, in its application for which purpose it checks the progress of Fire and the attacks of Vermin.

Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and Seel-street, Liverpool.

PORTLAND CEMENT.—Testimonials received from all quarters prove this CEMENT to possess the rare property of withstanding the severest frost, and to be consequently superior to every other for hydraulic purposes—such as the Building and Lining of Reservoirs, Cisterns, Baths, Fishponds, &c. For External Plastering and Ornamental Castings, it requires neither Colour nor Paint, it never vegetates, and will carry from three to four times its own body of sand.

Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT, solely Manufactured by W. ASPDIN, Son of the Patentee. This Cement has been proved, for upwards of twenty years in the Thames Tunnel, to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, crystalize, or turn green; nor is it affected by any atmospheric influence whatever, the climate resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall.

PATENT PORTLAND CEMENT.—To ENGINEERS, ARCHITECTS, SURVEYORS, and BUILDERS.—Messrs. ROBINS, ASPDIN, and Co., are preparing at their Wharf, Great Scotland-yard, Whitehall, a course of experiments to test the adhesive power and strength of their Portland Cement, when prepared with Cements of every description, manufactured by any other parties, and for the satisfaction of the building trade, they hereby invite all Cement Manufacturers to compete with them, either at their Wharf, or any other place to be agreed upon, pledging themselves to establish the great superiority of their cement over all others. R. A., and Co., will announce in The Builder and other papers, the time of trial to afford the opportunity of Engineers, Architects, Surveyors, and Builders being present thereat.

MARTIN'S FIRE-PROOF AND ORNAMENTAL CEMENT.

CAUTION.—Messrs. STEVENS and SON Patentees, beg to caution their friends and the trade generally against confounding this invaluable Cement with others, erroneously said to be of the same description. S. and S. pledge themselves that MARTIN'S CEMENT is totally dissimilar in composition and manufacture from every other, and being a neutral compound is not only free from chemical agency upon any substance with which it may come in contact, but completely resists the action of the strongest acids. They feel it a duty to direct attention to the following properties, which it exclusively possesses:—

1. It rapidly acquires the hardness of stone.
2. Unlike other internal cements, its hardness is uniform throughout its entire thickness.
3. Its surface (which may be made equal to that of the finest marble) NEVER THROWS OUT ANY SALT, and will receive paint in four days, without peeling, when put upon dry work.

It is peculiarly adapted as an internal stucco for walls, skirtings, architraves, mouldings, and enrichments of all kinds, to all of which purposes it has been extensively applied by Mr. Thomas Cubitt, on the Grosvenor estate, &c.

For the above purposes, it possesses great advantages over wood, being more economical and durable, resisting fire, damp, and vermin.

For the floors of halls and fire-proof warehouses, its lightness, durability, and uniform surface give it an immense advantage over stone, being, at the same time, much more economical. The most satisfactory references can be given. To be had of the Patentees, Plaster of Paris and Cement Manufacturers, 128, DRURY LANE.

Agent for Liverpool and Manchester, Mr. R. PART, 28, Columbia-place, Liverpool.

BOARD'S PORTLAND, BATH, and IMPROVED ROMAN CEMENT, Dunball, near Bridgewater.—The Proprietor of these Works begs to inform the public that he is now enabled to supply them with an unlimited quantity of the above Cements, and that the Bath and Portland will be found to resemble these celebrated stones both in colour and durability. They are recommended as being superior to all others, for the following reasons:—Being made of Inland Stone and not dredged from the sea as stone for Roman is), they are not impregnated with salt, therefore never vegetate or turn green as fault is generally complained of with Roman), they take a much larger quantity of sand than other Cement, never crack, blister, or peel off, and will be found even preferable to stone. They are perfectly Hydraulic, and will set under water in a few minutes; as an external stucco they are impervious to all kinds of water, and not affected by frost or heat; they improve both in texture and durability, and require neither paint nor colour to make them resemble the best Bath and Portland stone, no other mixture being required than common sand. When used as an internal Stucco for walls, mantlepieces, panels, &c., the Bath and Portland Cements may if required be trowelled up to a face almost equal to marble, or may be painted or papered on in a few days. The IMPROVED ROMAN CEMENT is made of the same kind of material, and will be found to possess all the qualities of Bath and Portland (except that of colour); it is cheaper, and in every respect better, than any previously offered to the public, and only requires one trial to be appreciated.

A stock of those Cements, as well as Blue Lias Lime ground for concrete, always on hand, which may be had at BOARD'S Depôt Stone-yard, Paddington Station, and of the following Agents, viz., Mr. H. Cook, Surrey-street, Kent-square, Liverpool; Mr. Baker, 78, Digbeth, Birmingham; Mr. Farne, Horsefair-road, Bristol; Messrs. Nesbill and Co., Temple Backs, Bristol; Mr. W. Batey, Quay, Bath; Mr. Grimsly, Oxford; Messrs. Charles, Reading; Mr. Thos. George, Windsor; Mr. Hurnaman, Taunton; Mr. Tuckett, Exeter; Messrs. Brewer's and Co., Bridgwater; Messrs. Southam and Evans, Gloucester.
